

FOR IMMEDIATE RELEASE

MultiPlan's PHCS Network Receives Eighth Consecutive NCQA Certification

(New York, NY) May 13, 2015 – MultiPlan Inc. announced that its PHCS Network once again received Certification in Credentialing by the National Committee for Quality Assurance (NCQA).

The PHCS Network was first certified in 2001, making this the eighth consecutive time the network has met the strict standards established by NCQA. To maintain its NCQA Organization Certification (OC) in Credentialing, the PHCS Network underwent a rigorous review of the credentialing and recredentialing processes and demonstrated compliance with the NCQA's standards. This achievement confirms the quality and consistency of the service MultiPlan offers to its clients, providers and health plan participants who use the PHCS Network. The new certification is valid through April 20, 2017.

“We are proud to receive this important endorsement of our PHCS Network from NCQA. It validates our commitment to quality and is a direct result our employees' efforts in maintaining our high operational standards,” says Dr. Anthony Sposato, MultiPlan's Vice President and Corporate Medical Director. “This distinction further positions the PHCS Network as the leading independent primary PPO in the industry and lets our clients and their health plan members choose the PHCS Network with confidence.”

The PHCS Network, MultiPlan's PPO network, is the largest independent primary PPO in the nation. The PHCS Network provides health plan members with a seamless access to healthcare services whether they seek care in their backyard or across the country.

“Achieving Credentialing certification from NCQA demonstrates that the PHCS Network has the systems, process and personnel in place to conduct credentialing in accordance to the 2013 Standards and Guidelines for Certification in Credentialing with the strictest quality standards,” said Margaret E. O'Kane, President of the National Committee for Quality Assurance.

NCQA is an independent, not-for-profit organization dedicated to assessing and reporting on the quality of managed care plans, managed behavioral healthcare organizations, preferred provider organizations, new health plans, physician organizations, credentials verification organizations, disease management programs and other health-related programs.

About MultiPlan, Inc.

MultiPlan, Inc. is the industry's most comprehensive provider of healthcare cost management solutions. The company provides a single gateway to a host of network- and analytics-based solutions for managing the financial risks associated with healthcare claims as well as products that fight waste, abuse and fraud before payments are made. Clients include insurers, health plans, third party administrators, self-funded employers, HMOs and other entities that pay medical bills in the commercial healthcare, government, workers compensation and auto medical markets. MultiPlan is owned by an investment group led by Starr Investment Holdings and Partners Group.
